Our Mission

Mirror aims to bring designers and developers together through two days of fantastic talks and friendly networking. We feel there is a lack of quality events that engage with the necessary knowledge depth for both audiences that allows them to learn, while sharing their experiences.

Why Braga?

Braga has great tech companies with major international relevance, as well as young companies and startups and it’s Portugal's third biggest city, with an amazing history and a great University.

It was also the European Youth Capital in 2012, and it’s 30 mins away from Porto, the second biggest city of Portugal and the coolest city of Europe. You probably already heard of it, at least about the Port Wine and the OPO airport.
